PROJECT DETAILS	

PROJECT TITLE	FOOD AUTOMATED ORDERING SYSTEM
TEAM MEMBER	2
ENVIRONMENT TO WORK WITH	ECLIPSE,PHP,MYSQL

Abstract: This system is the business application that can be used in food court to increase the performance and quality of the service with real time customer feedback. This system provides wireless environment between customer and food court owner with less time and less man power.

PROJECT TITLE	SHOPPING PORTAL AND WAREHOUSE MANAGEMENT
TEAM MEMBER	2
ENVIRONMENT TO WORK WITH	DREAMWEAVER, PHP, MYSQL

Abstract: The basic concept of this project is to implement online shopping system that permits a customer to submit online orders for items and/or services from stores that serves both walk-in customers and online customers. The online shopping system presents an online display of an order cutoff time and an associated delivery window for items selected by the customer. The online shopping system does not settle with credit supplier of the customer until the item selected by the customer is picked from inventory but before it is delivered.

PROJECT TITLE	PERSONALIZED RECIPE RECOMMENDATION SYSTEM USING HYBRID APPROACH
TEAM MEMBER	1
ENVIRONMENT TO WORK WITH	ECLIPSE, DREAMWEAVER, JAVA, PHP, MYSQL, HADOOP, Mahout

Abstract: This is the analysis project. The basic concept of the project is to implement the recommendation engine. There are two types of existing approaches: Content based filtering and Collaborative approach. In this project, combination of that two existing approaches are used and made hybrid approach. There is the huge amount of recipes are available in the system, but user know some of the recipes. So, the main concept of project is to suggest the new recipes to the user based on the past experience that user has not experienced yet by using hybrid approaches.

PROJECT TITLE	DELIVERY NOTE ON SMARTFORMS
TEAM MEMBER	5
ENVIRONMENT TO WORK WITH	SAP (SMARTFORMS)

Abstract: The basic concept of this project is to implement smartforms in SAP. This project is based on SD (Sales and Distributions) Module. The smartform has the detail of the particular customer, Shipment, Ship to, Sold to, the item that customer has purchased.

PROJECT TITLE	HASTE AUTOMOBILE
